Baby Basics provides free nutritional formula and diapers for babies, newborn through two years of age, along with a safety net of emotional support and referrals for low-income families living and/or working in Bergen County. Baby Basics has been keeping babies happy, healthy and dry for over 25 years!

Hosting a supply drive for Baby Basics is easy and fun. Local diaper drives allow us to collect thousands of diapers each year, helping to ensure that no parent has to choose between diapers and food, medicine or paying rent to keep their babies strong and healthy. Thank you for helping us to change lives—from the bottom up!

**GETTING STARTED**

1. Choose your date and location.

2. You can register your event online at: CAFSNJ.org/baby-basics-drive or complete the form in this kit and mail it in.

3. Contact our Volunteer and Resource Specialist at 201-261-2800 ext. 7104 for additional guidance.

**SETTING UP YOUR DRIVE**

The duration of a typical diaper drive is usually one to four weeks, depending on your organization. Select the time frame that best suits your organization. Consider a fun theme or timing your drive with a particular event.

Designate a drop off area for the diapers and supplies. Decorate a large box, bin or use a pack ‘n play to collect the diapers. Decorating with baby items is a great way to have fun and to draw attention to the donations. The more people who see the donations, the more likely they will donate! A large box covered in baby gift wrap works well.
PROMOTING YOUR DRIVE
For optimal results, you should provide information about the Baby Basics program and its mission to all individuals in your organization. Baby Basics’ mission is to help low-income, working families with babies under the age of two, meet their basic needs. You can find additional information in your Tool Kit, and a Baby Basics program representative is available to speak with your group.

DELIVERING YOUR DONATION
At the end of the drive, gather all the donations in boxes or bags and contact our Volunteer and Resource Specialist to set up a time for drop-off or pick-up.

Monetary donations to Baby Basics (checks made out to Children’s Aid and Family Services with a designation to “Baby Basics” on the subject line) are also greatly appreciated! Through our diaper purchasing partnerships, we receive discounts that maximize your donation and stretch your dollar to keep more babies clean, dry and healthy!

GIVING RECOGNITION
Please give our Volunteer and Resource Specialist all the necessary information regarding who, what, when and where the drive took place so everyone involved can be recognized!

If you would like to collect the names and contact information for individuals who contribute supplies to the drive so that we can thank them for their generosity and keep them informed about our programs, please use the contact sheet in this Baby Basics Supply Drive Tool Kit to easily record this information. We’ll be sure to send a note of appreciation for their generous donations! (Baby Basics will not share this contact information with other businesses or organizations.)

CONGRATULATIONS AND THANK YOU
You have provided a tremendous service to families and children in need in our community!

WHAT IS DIAPER NEED?
Diaper need is the lack of a sufficient supply of diapers to keep babies and toddlers clean, dry and healthy.

FAST FACTS
• 1 in 3 families report experiencing diaper need.
• An adequate supply of diapers for a baby or toddler costs approximately $80 per month.
• No state or federal child safety-net program allocates dollars specifically for the purchase of diapers.
• Babies require up to 10 diapers a day and toddlers about 8.
• Cloth diapers are not accepted at the vast majority of child care centers.

THE CONSEQUENCES OF DIAPER NEED
• Babies who remain too long in diapers are exposed to potential health risks.
• Most child care centers, even free and subsidized facilities, require parents to provide a day’s supply of disposable diapers. Many parents cannot go to work or school if they can’t leave enough diapers for their babies in child care.
• Moms who don’t have enough diapers are three times more likely to suffer from depression and anxiety.
• Children who are left in soiled diapers are uncomfortable and cry more. Children who cry more are at a greater risk of child abuse.
